FOREWORD TO THE SWIMMING RULES

These rules contain the requirements for the conduct of Swim Meets at any level ranging from State, Area and Club Championships. Therefore, whilst the Swimming Rules incorporate the salient principles of the FINA Swimming Laws many have been expanded over the years to cater for the contingencies encountered by Swimming New South Wales

Swimming New South Wales has embraced the need for all Technical Officials to be aware of the current Rules that apply to the Sport. In particular, all Referees must meet and maintain the re-accreditation requirements as determined and published by Swimming Australia Limited (SAL) and the Company from time to time. In the Rules a reference to "a Referee" means a person who has attained the referee's credential and who meets the re-accreditation requirements.

The Swimming Rules in the following sections are based on the Rules and principles laid down by FINA, IPC and SAL. For the purpose of the following Rules an EVENT shall include a scratch race, a handicap or championship or other swimming competition, heat or final. "Notes" and "Clarifications" DO NOT form part of the Swimming Rules but rather are for guidance and understanding.

A reference to "Men" and "Women" includes all age groups in each sex; the prefixes "GR" and "SW" followed by a number indicate a reference to the General Rules and Swimming Rules respectively, as the context requires.

The

swimmer having the next fastest time is to be placed on his left, then alternating the others to right and left in accordance with the submitted times. Swimmers with identical times shall be assigned their lane position by draw within the aforesaid pattern. [Refer example tables following SW3.4.3.]

SW3.4.3 When 50 metre events are contested in 50 metre pools, races may be swum, at the discretion of the Meet Committee either from the regular starting end to the turning end or from the turning end to the starting end, depending upon such factors as existence of adequate Automatic Equipment, starter's position, etc.. The Management Committee should advise swimmers of their determination well before the start of the competition. Regardless of which way the race is swum, the swimmers shall be seeded in the same lanes in which they would be seeded if they were both starting and finishing at the starting end. At any swim meet where the operation of approved Automatic Officiating Equipment is provided:

SW11.1 The operation of this equipment shall be under the supervision of appointed
FINA SW11.1 Officials. Times recorded by Automatic Equipment shall be used to determine the winner, all placing and the time applicable to each lane. The placing and times so determined shall have precedence over the decisions of Timekeepers. In the event that a breakdown of the Automatic Equipment occurs or that it is clearly indicated that there has been a failure of the Equipment, or that a swimmer has failed to activate the Equipment, the recordings of the Timekeepers shall be official (see SW13.3).

SW11.2 When Automatic Equipment is used, the results shall be recorded only to
FINA SW11.2 1/100 of a second. When timing to 1/1000 of a second is available, the third digit shall not be recorded or used to determine time or placement. In the event of equal times, all swimmers who have recorded the same time at 1/100 of a second shall be accorded the same placing. Times displayed on the electronic scoreboard should show only to 1/100 of a second.

SW11.3 Any timing device that is terminated by an Official shall be considered a
FINA SW11.3 watch. Such manual times must be taken by three appointed and approved Timekeepers. All watches shall be certified as accurate to the satisfaction of the governing body concerned. Manual timing shall be registered to 1/100 of a second. Where no Automatic Equipment is used official manual times shall be determined as follows:

SW11.3.1 if two of the three (3) watches record the same time, and the third disagrees,
FINA SW11.3.1 the two identical times shall be the official time;

SW11.3.2 if all three (3) watches disagree, the watch recording the intermediate time
FINA SW11.3.2 shall be the official time,

SW11.3.3 with only two (2) watch times recorded the slowest time recorded shall be the official time

SW11.3.4 with only one (1) watch time recorded that shall be the official time.

NOTE:

Three watch times are required for Swimming New South Wales Records(see SW12.1).

SW11.4 Should a swimmer be disqualified during or following an event, such

the event within seven (7) days at such time and place as the promoting body
may direct.

SW11.8 Where a swimmer is disqualified for any reason, including drug misuse or
Doping Control the placing he would have held shall be awarded to the
swimmer next placed and the other swimmers advanced accordingly. When
the disqualification occurs after the presentation of the awards, such awards
shall be recalled and represented to the appropriate swimmers as determined
by this Rule.

SW11.9 For determination of placings (see SW2.1.7) when Automatic Officiating
Equipment is not used and if the times registered by the Timekeepers do not
agree with the decision of the Finish Judges and where the time of a swimmer
placed second is better, the first placed swimmer and the second placed
swimmer shall be credited with the times calculated on the average of the
actual times recorded for both the first and second places. The same principle
is to apply to all placings. It is not permissible to announce times which do not
support the classifications made by the Finish Judges.

- SW12.1.9.3 A swimmer in an individual event may apply for a record at an intermediate
FINA SW12.9 distance if the swimmer, coach or manager specifically requests the Referee that the performance be especially timed or if the time at the intermediate distance is recorded by approved Automatic Officiating Equipment.
